

Fabric Printing by **PIXELADIES**

Custom Printing:

The following prices have been calculated based on common requests for printer-ready images. "Printer-ready" means that these prices do not include manipulating the image other than to make standard image resizing and color adjustment for our particular printers. We will scan your images at no extra charge. All pieces are unhemmed and include a ½" seam allowance on all sides. Please contact us for estimates on other sizes.

Cotton broadcloth Silk habotai Silk gauze Silk crepe georgette Rayon challis Linen	4" x 6" \$6.00 each 5" x 7" \$7.00 each 8" x 8" \$9.00 each

Design Services:

The Pixeladies are also proud to offer our unique design services. We can manipulate your image to create unique overall patterns, coordinating fabric, or to repair damaged photographs. Our design fee is \$60.00/hr. Please contact us for an estimate on your project.

A Note on Printing on Fabric:

- ❖ The Pixeladies assume that the copyright to all images and texts belong to the client. Please do not ask us to print anything to which you do not hold the copyright.
- ❖ Please remember that fabric has texture and therefore the resolution of the image is not the same as photographic paper. Some details just do not show up on fabric.
- ❖ Fabric is not metallic, and we cannot reproduce anything shiny with this process.
